

Professionalism and top-of-the-line technology

A reliable team for mechanical manufacturing of components for power plants, with impeccable quality

A solid company, Ompg, whose experience and professionalism depend on the management of the Gavazzeni family, starting with Pierino Gavazzeni, owner and founder of the business in 1980, who was then joined by his brothers and minor partners, Riccardo and Giuseppe, with children and wives managing technical, administrative and manufacturing areas. Working together and with generational continuity, therefore, for a business which has become a leader in manufacturing components for plants in oil&gas, wind, nuclear and cryogenic industries. "We are suppliers for some of the biggest manufacturers of power plants in the world - says Sindy Gavazzeni, daughter and manager of the sales department -. Working together with these important businesses, we have grown a lot over the last few years". A step ahead supported by statistics: in 2016 the turnover increased by 15% compared to the previous year. Very important for Ompg are the human resources : 60 employees with a lot of experience, constantly trained

Pierino Gavazzeni

in technical and safety skills (the company is working towards obtaining Ohsas 18.001 certification). The considerable manufacturing potential, Uni En Iso 9001 and 3834 quality certification, constant investment to improve the quality of all phases of manufacturing, allow Ompg to keep up with the times in a market which is constantly evolving. The machine inventory is made up of lathes, boring machines, grinders that can manufacture pieces up to 6 metres in diameter and spheres up to 64", top-of-the-line welding machines will be implemented with the arrival of an important investment in 4.0 technology and innovation: a Trevisan DS1800/600C work station, the first of its kind produced by the company in Veneto, which will guarantee excellent results, as claimed by the owner Pierino Gavazzeni, reducing manufacturing times and costs. Therefore it is an investment for the future aimed at growing this business which, for 37 years, has always proven itself to be reliable and ready to meet the needs of the market.
